Dear Rainer,

Excellent! Glad you received the final payment.

I'm already having a great deal of fun with the violin, the sound is really coming alive with character and colour, as I learn how to pull it from the instrument. It is an incredibly rewarding journey of discovery! I'm really really delighted every time I open the box. Thanks so much for a) making it with such care and precision, and b) taking the time with me to capture the magic!

Kind regards,

Andrew
